

Planned Power Cut - Friday 29 May 2026

0900 to 1600 hours

We have been informed Scottish and Southern Electricity Networks need to turn our power off as above to trim and remove tree branches which are near their overhead lines.

We will be operating a limited service and would ask patients to:

- Collect medication and particularly fridge items on Thursday 28 May (as we need to refrain from opening fridges to maintain temperature for medication and vaccinations)
- Phone the surgery only to make an urgent on the day telephone call appointment to speak to a clinician

During this time, we will be unable to:

- Dispense medication on the day
- Make / cancel appointments, except urgent on the day telephone calls
- View test results or process any correspondence

Please be mindful anything that requires power will have to wait until it has been restored.

Once the power has been reconnected, we will endeavour to process requests and correspondence as soon as possible but please bear with us as this may not be as quick as you would usually expect.

We apologise for any inconvenience this may cause.
